# Project 14654

AF Electronic Med-9 Form

With the implementation of this project, workers will be able to request through CBMS that a medical provider completes a Med-9 online for a client.

At Intake or RRR, workers can select 'Yes' on the new radio button '**Request Electronic Med-9**' on the Medical Conditions page. If Request Electronic Med-9 has already been set to 'Yes', it will continue to push a Med-9 referral at RRR automatically.

The client still must notify their medical provider to complete the Electronic Med-9 Form. They still have the option to fill out the Med-9 Form in paper.
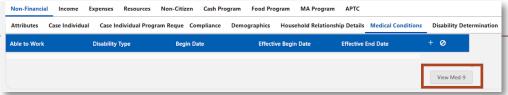

When an Electronic Med-9 Form is availalbe in PEAK, workers will select the button 'View Med-9' to open the form in a PDF format. This button is located in the Medical Conditions tab. If no Med-9 form is available, this button will be disabled.

Once the medical provider completes the form and sends it through a new online portal, the data will be automatically uploaded in CBMS.
