

CBMS Run Back Date Project 14741 - June 2021

Summary

This project will provide users with the Override EDBC Run Month user type with the appropriate access to run a date back in CBMS instead of having to alter a date on a different screen to be able to perform the action. This will save time and be better for the audit trails.

Override Run Month Field

A new screen 'Run EDBC for Previous Months' will be added beside the Run EDBC screen.

1. This screen will have **Override Date** and **Override Reason** fields and will be enabled when the user has User type Override EDBC Run Month.
2. **Override Date** will be mandatory when **Override Reason** is entered.
3. EDBC will be called with the new date and will run from that Date forward.
4. The date selected in the **Override Date** field will add a record in the **Case Data Changes** list and will populate the **Earliest EDBC Begin Date** and the **Default EDBC Begin Date** fields.

The screenshot shows the CBMS application interface. The top navigation bar includes 'Home', 'Workforce Home', 'Search', 'Application', 'Incomplete Applications', 'Case', 'Benefits', 'Work Programs', 'Follow Up Activities', 'System Functions', 'Security Information', and 'More'. The main content area is titled 'Run EDBC for Previous Months' and contains a table with the following data:

Override Reason	Override Date	
Audits	03/10/2021	

The screenshot shows the 'Run EDBC For Previous Months' screen. The 'Detail' section contains the following fields:

- *Override Reason: A dropdown menu with the text 'Select Override Reason ...'.
- *Override Date: A date input field with a calendar icon.

At the bottom of the screen, there are four buttons: 'Cancel', 'Save & New', 'Save & Continue', and 'Save'.
