Colorado Works Technical Clean Up

Project 14684 | June 2021

STUDENT DETAILS SCREEN

Expected Graduation Date

For Colorado Works, if there is an individual from age 16 to 18, the Expected Graduation Date must be entered in the Student Details Page. Otherwise you will not be able to authorize the case.

Reminders and Authorization

STUDENT DETAILS SCREEN

If the “Expected Graduation Date” field isn’t entered, a reminder appears saying “Student age 16-18 does not have an Expected Graduation Date Entered”.

ONLINE AUTHORIZATION

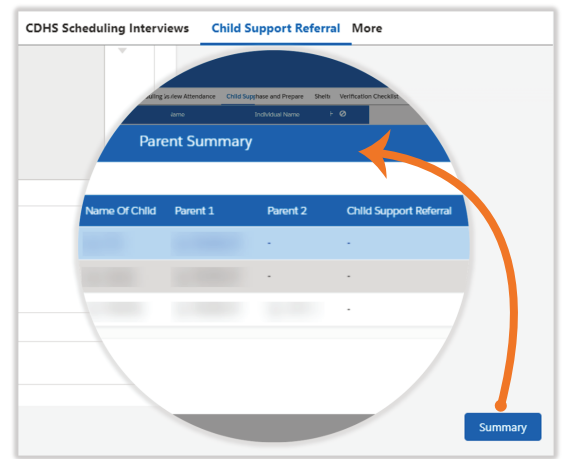

If the “Expected Graduation Date” or “Highest Grade Completed” fields are not complete, a message appears to remind workers to complete the data entry or they will not be able to complete authorization. There is also a new hyperlink that returns you to the Student Details Screen.

CHILD SUPPORT REFERRAL SCREEN

Parent Summary Screen

A summary button was added that opens the Parent Summary Screen. This shows a summary of the children in the home and the parents - whether in the home or not.

- Parents in the home who are identified in the Household Relationship window show in the Parent 1 or Parent 2 columns. Parents entered in the Child Support Referral Window also display in this column.
- If two parents display for a child, regardless of column, this means parent information for the child is complete.
- If only one, or no, parent name is displayed, this means the parent(s) data needs to be entered either as a parent in the home or one who needs a child support referral.

CHILD SUPPORT REFERRAL SCREEN

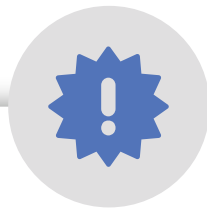

Page Layout Updates

The good cause section that relates to child support referrals is moving to the Child Support Referral Screen. The selection of the children related to each absent parent has also moved to this main screen.

The Demographics, Physical Description, and Marital Information sections have moved to the bottom of the Child Support Referral screen.

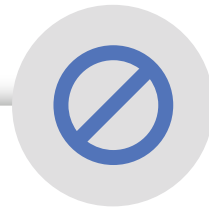

The Good Cause date field was updated to “Good Cause Granted Date”.

The Good Cause drop downs were updated to “Granted”, “Denied”, “Not Requested”, or “Pending”.

Depending on the Good Cause value selected, the “Type of Good Cause” and “Good Cause Granted Date” fields will be either mandatory, optional, or grayed out.

The Good Cause Reason and Status fields are no longer needed. They have been removed from CBMS.
