

EBT CASH Expungement Timeline

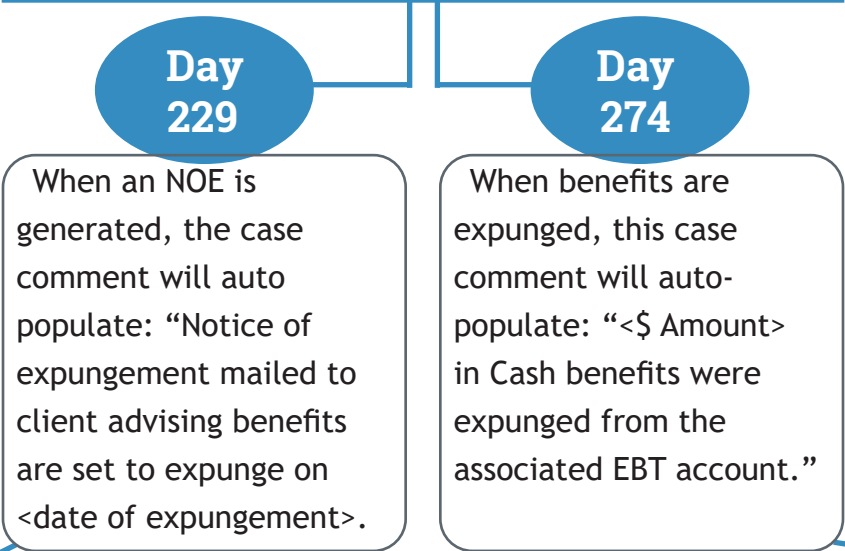

Expungement Timeline

- When an EBT benefit is inactive for 274 days, the EBT benefits are removed. After 229 days of inactivity (45 days before expungement), a Notice of Expungement (NOE) is sent to the client notifying them of the date benefits are set to expunge and what actions they can take to prevent expungement.
- Benefits will continue to be expunged each month until their EBT account is at a zero balance or until benefits are accessed with only one NOE being sent to the client addressing their initial expungement.
- Note: Utilizing SNAP benefits does not stop the expungement timeline for cash.

Cash Notice of Expungement

Expungement Date: [Date expungement set to occur]

Any cash benefits issued to an Electronic Benefit Transfer (EBT) card and not accessed within 274 days from either the benefit issuance date or the date of last activity, whichever is later, shall be expunged from the EBT card. Expungement is a process in which the State of Colorado is required to remove cash benefits from EBT cards after they are considered as unused or inactive (Rule citation: 9 CCR § 3.609.2.F.4 and 3.581.F.4).

Cash benefits issued to your EBT account are set to be removed on [Date expungement set to occur] due to account inactivity. To stop this from happening, you need to use your EBT card before [Date expungement set to occur]

Cash Notice of Action Approvals

Cash approval notices advise clients that they need to use their benefits within 274 days to keep their benefits active. If the benefit becomes inactive, those benefits will be removed as shown in the timeline above.
