Case ID “Go Box”

December 2020

Have you ever been frustrated that you have to leave a page in order to search for a new case?

Now you can stay on the same page and change to a different case when using the Go Box to search with a new case number.

This will eliminate the need to copy/paste the Case ID on Non-Case tab screens.

You can turn on the Case ID Go Box by clicking the “Change Case in Context” option in your Advanced User Details - Additional Information.
