# **CBMS MEDICAL ASSISTANCE RE-APPLY**

# When is Re-Apply Used

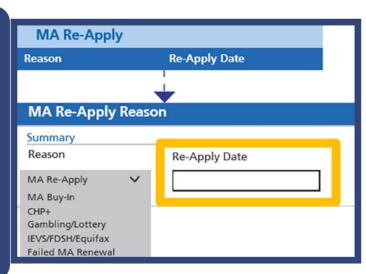

- When a member has been discontinued on an open/active MA case and 30+ days have passed since termination
- If required information is received after 30 days, and there is a gap in coverage, use retro selection in Reapply related list to apply Retro Coverage for gap, and add Medical Expenses and Income for the requested months.
- If 90+ days have passed since the member was terminated, a new application is required.

## **NAVIGATING MA RE-APPLY IN CBMS**

Navigate to Case Individual Program Requested tab.

For eligible members, the related list will automatically populate the MA Re-Apply Reason (based on the member's current application). You will only need to complete the Re-Apply Date field.

## **ADDITIONAL INFORMATION**

If a member turns in the information within 30 days of termination, Re Apply is not used. The user would enter the information received and run EDBC.

## **RETRO COVERAGE**

#### 3 MONTHS

Retro Coverage goes back to the beginning of the month that is 3 months prior to the application date.

### 90 DAYS

There is also gap coverage within the 90-day reconsideration period.

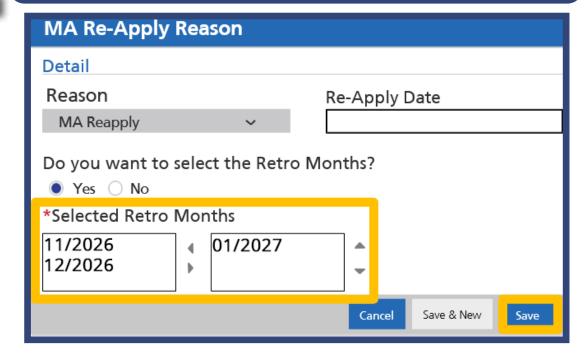

# **NAVIGATING RETRO COVERAGE IN CBMS**

Retro Coverage is requested by the member and only applies to those meeting the MA Re-Apply criteria.

When an MA Re-Apply date is entered, you're prompted to select the month(s) for which the member is requesting Retro Coverage. The available selection of month(s) is generated by the system based on the member's Re-Apply application date.

If retro months are requested, Medical Expenses and Income for the retro months must also be entered.

### ADDITIONAL INFORMATION

- If a gap in coverage exists for the current application, Retro Coverage can only cover up to 3 months prior to the MA Re-Apply month.
- Retro Coverage will only be allowable for every gap record within the current application (not past applications) for the generic MA Re-Apply reason.
- Remember to enter income and medical expenses for the retro months requested.
