# Medical Assistance Eligibility Spans (Med Spans) - Invalidated/Deleted Spans

**Med Spans should not be invalidated/deleted, except for in the following scenarios:**

**1** When a member is terminated from Medical Assistance due to death and their date of death is prior to their eligibility begin date

**2** When a member is approved for Medical Assistance with a future eligibility begin date and then denied prior to the eligibility begin date

When a Med Span is invalidated/deleted in CBMS, the span will be removed from the MA Eligibility Span page and placed in history. You will see this span as a one-day span. The one-day span will be sent to the interChange (iC) to notify of the invalidated/deleted Med Span in CBMS.
