

Project 13959

CBMS Correspondence

August 2020 Builds

Summary

This project will make updates to the NOA's from Project 13196 The Alignment of IPV Disqualification Periods.

The NOA update has been determined insufficient and the implementation strategy needed to be changed.

What changes are being made?

A new Cash Program waiver was created and a checkbox has been added in CBMS to record usage.

Why is there a new Cash Waiver?

The new waiver was created to include IPV's for Adult Financial and triggers correspondence when an IPV is entered on Colorado Works and Adult Financial cases. This project also adds the ability in CBMS to record when a signed waiver is returned by a client.
