**SNAP Split Child Custody Companion Cases Related List** (above) will be modified to display a warning popup when the Majority meals is updated from **No** to **Yes** on a Case.

The pop up (below) will display the following informational message:

Warning

Updating the Majority Meals Received in this Household field from No to Yes may impact companion cases. Please check the related list.

Ok

Whenever a record is saved with **Majority Meals Received in a Household** is marked as **Yes**, a record will be created for the companion case(s), if there are no existing records for other SNAP companion cases with the same child.

A **SNAP Split Child Custody Companion Cases Related List** will be added to 'view all' **Majority Custody** spans. List will display the Case ID, **Majority Custody value**, **Verification**, **Source**, and **Majority Meals value** for the child on the current and companion SNAP cases. It will be associated with the same table as the *parent screen*.

If the indicator has been placed on the incorrect CBMS case, or if an **Effective Begin Date** is entered incorrectly, create a **Help Desk Ticket** to have the issue corrected.
