

SNAP VERIFICATION DENIAL

IF REQUESTED VERIFICATION IS NOT RECEIVED...

- At intake: CBMS will auto-deny on day 30.
- At RRR: CBMS will auto-deny/discontinue after due date, plus 3 days. User can run RRR verification after due date to deny earlier.
- A new case comment will auto-generate when a SNAP case (Regular SNAP, EXSNAP, and T-SNAP) is discontinued for not providing the required verification:

Type of Case Comment: Verification
Program Group: SNAP
Individual: <Name of individual who was denied SNAP>
Text: <Name> has been discontinued for <month(s) of discontinuance (e.g., July 2022)> due to not providing the required verification(s)

- The Denial/Termination NOA will trigger automatically and be sent to client(s). It will include a list of verifications that resulted in a SNAP denial, as well as a list of verifications that were not received, but did not result in a SNAP denial.
