**Gross Monthly Benefit**

The last 8 occurrences of payment history data may be displayed to provide historical payment information. It is essential to understand the meaning of *occurrence*. Each occurrence of data indicates a change in entitlement amount or reflects that benefits were not due. *Therefore, the 8 historical entries show the last 8 changes in benefit amount, not the last 8 months.* For example, an individual whose payment just changes once a year because of the cost-of-living adjustment would have only one occurrence of entitlement history per year. In situations where the individual has been in current payment status, or in full suspense, AND there has been no retroactive change in his/her benefit amount, the history is also a payment history. However, in many cases where there have been adjustments to the record, this history does not accurately reflect the actual payments made. It does reflect what the individual was entitled to receive for those months.

C = Benefits paid (credited)  
 N = Benefits not paid (not credited)  
 E = Benefits not paid (not credited), due to delay/pending or suspense  
 Blank = Benefits not paid (not credited)
