Allowable Business Expenses: Most business expenses may be subtracted from your self-employment income, but IRS rules for business expenses may not necessarily apply to all Public Assistance Programs. Please document all expenses and they will be applied to your Self-Employment Income following Program Rules. If you have questions please contact your Eligibility Site.

Examples of expenses that could be listed include:

- Amounts paid for items or services needed in the business such as merchandise, supplies, repairs, advertising, labor, feed, seeds, fertilizer, etc.
- Amounts paid for income-producing real estate, capital assets, equipment, machinery, and other durable goods required for the self-employment business.
