Project #8537 CBMS PEAKPro Homelessness Risk Assessment

Homelessness Risk Assessment User Guide: CBMS

1575 Sherman St., Denver, CO 80203 P 303.866.5700 cdhs.colorado.gov Jared Polis, Governor | Michelle Barnes, Executive Director

| Purpose | This project implements a Homelessness Risk Assessment (HRA) that can be completed by housing navigators/case managers using CBMS. This project is part of the governor's wildly important goal (or WIG) for the 2023-2024 state fiscal year. This User Guide will review the process to request and grant access to the assessment for CBMS users and will guide you through administering the assessment in CBMS. Partners who are not county employees or contractors must use PEAKPro rather than CBMS. Please refer to the PEAKPro version of this user guide. |

COLORADO Office of Economic Security Division of Economic & Workforce Support

Requesting Access

You will need to reach out to the County Security Administrator (CSA) for the county you work with to receive access to the Homelessness Risk Assessment within CBMS.

If you do not currently have access to CBMS, but are a county employee / contractor, you should discuss with your county whether it is best for you to receive access to CBMS to complete assessments there, or whether you should access the assessment through PEAKPro.

Partners who are not county employees or contractors must use PEAKPro rather than CBMS. Please refer to the PEAKPro version of this user guide.

Giving Users Access as a CSA

Giving a user access to the Homelessness Risk Assessment within CBMS requires granting them the appropriate profile. Profile 196 (update) should be given to housing navigators/case managers or others in your county who may administer these assessments as your county determines. Profile 195 (inquiry) may be given to eligibility workers or case managers who would benefit from being able to view the results of assessments completed by others as they could be serving the same client.

The Domestic Violence Training Completed option is an important part of the user access process. After granting the profile access, you will need to also indicate if the individual is trained in domestic violence. If you fail to complete this step, some assessment questions will be hidden from the user.

You must confirm with the user that they have received training in domestic violence before checking the box. Acceptable trainings include the Family Violence Option (FVO) Fundamentals training available through COLearn.

Once you have confirmed that the user has been trained, navigate to the Security Information tab. Search for or select a user to view their Security Information. Scroll to the User Validity section and you will see a checkbox where you can mark Domestic Violence Training Completed.

Selecting Domestic Violence Training Completed will allow the user to access the full assessment. If left unchecked, by default, safety-related questions will be hidden.

Creating an Assessment

To access the assessment, navigate to Follow Up Activities, and then to Homelessness Risk Assessment. You can search for an individual who is known to CBMS by their Case, or First Name/Last Name, by choosing Case or Known Individual. If using these options, click Search and choose the correct person.

If the individual is not known to CBMS, choose the Unknown Individual radio button and enter their First Name and Last Name.

| First Name test | Section 2: Client demographics and household size Answer the following questions about who is taking the assessment and to gather demographic information about that person. This section further asks questions about household size. All responses are optional, however, responses may help connect the household to community resources and some responses, such as contact information, may improve service connections. For responses on household size and composition, ask the client to consider the household size if a housing resource is available. For example, ask questions such as "if you were moving into a new housing situation, who in your household would be moving in with you?" | and | | | | | | |

The Homelessness Risk Assessment

The homelessness risk assessment is divided into 5 sections:

- 1. Assessor details
- 2. Household details
- 3. Current living situation

- 4. Safety considerations
- 5. Household vulnerabilities

Note: The questions within the assessment and scoring attributed to particular responses can be changed by the CDHS Director of Homelessness Initiatives to address feedback received as we begin to implement use of the assessment.

As you complete the assessment you will see that sections 3, 4 and 5 will display a Total Point Value. The assessment will calculate points based on your answers and in the end will use this calculation to make a recommendation for supportive payments and referral.

| *Interviewer's Last Name | *Interviewer's First Name | | | *Preferred contact information for follow up | *Colorado county for Assessment Responses for Colorado county for assess- ment should reflect the Colorado county where the client is being assessed not where the assessor is based, if the assessor represents multiple counties and/or regions. | | |

Sections 1-3

Section 4: Household Safety Considerations

This section contains questions about domestic violence and safety. Due to the potentially sensitive nature of these questions, additional training is required before assessors may access and use this part of the assessment.

If you have not received training in working with people who experience domestic violence or have not yet provided proof of your training to your CSA, then this section will be hidden.

Completing and passing the Family Violence Option Fundamentals web-based training in COLearn will meet the training requirement to access the domestic violence assessment in Section 4.

Help your CSA help you by providing this guide to them with proof that you have been trained, so they can enable these questions for you.

Section 4: Household safety considerations Are you currently being harmed or at risk of Have you experienced violence or threats Is your current housing situation in any way Total Point Values from Section 4 being harmed by another person? of violence in the last six months that has caused by a relationship that broke down, had an impact on feeling safe where you an unhealthy or abusive relationship, or be ○ Yes ○ No ○ Unknown cause family or friends caused you to belive? come evicted? 🔿 Yes 🔿 No 🔿 Unknown 🔿 Yes 🔿 No 🔿 Unknown Section 5: Household Vulnerabilities

Section 5: Determining household vulnerabilities

Do you have any family or friends in the area you can stay with if you lost housing? Yes No Unknown

Were you ever homeless and/or couch surfing when you were a child under 18years-old?

🔿 Yes 🔿 No 🔿 Unknown

Do you or anyone in your household have any documented physical health issues that makes it difficult to find or maintain housing?

🔿 Yes 🔿 No 🔿 Unknown

Did any of the following issues bring on your housing crisis?

Do you or anyone in your household have any documented behavioral/ mental health issues that makes it difficult to find or maintain housing?

○ Yes ○ No ○ Unknown

Do any of the following issues make it difficult to find new housing or maintain existing housing?

Do you or anyone in your household have any substance use (drinking or drug use) issues that makes it difficult to find or maintain housing?

○ Yes ○ No ○ Unknown

Total Point Values from Section 5

Section 6: Outcomes and Referrals

In this section click the Calculate Score button to add up the points from sections 3-5 and display a total point value. This point score will help the system make a recommendation for support and for referral.

Click submit to save the completed assessment.
